OVERVIEW

I am a computer science enthusiast and a passionate programmer. I have been doing competitive programming for a long time. I have worked as a full-stack developer on various projects. I do programming for fun; not for money.

EXPERIENCE

E-Medical Solution Limited, Sylhet — Junior Software Developer

October 2020 - PRESENT

Currently working here with the goal of optimizing radiology productivity and improving patient outcome delivery through transformation medical imaging software solutions.

EDUCATION

Sylhet Engineering College, Sylhet — BSc(running) in Computer Science and Engineering

2017 - Present

Saint Joseph Higher Secondary School, Dhaka — HSC

2013 - 2015

SKILLS

Languages: C/C++, JavaScript, C#

Framework: .NET, Express.js

OS: Windows, Linux

PROJECTS

[YelpCamp](#) — Node.js and MongoDB

A full-fledged CRUD application with database implementation and user authorization. It can be used as a template for book/restaurant/other review sites.

[WeatherBD](#) — Node.js

A weather forecast web application made using third party APIs.

[Color Guessing Game](#) — JavaScript

A color guessing game where you have to guess the color from a given RGB value.

[Pin Matcher](#) — JavaScript

It generates a pin and checks if the input matches the required pin.

COMPETITIVE PROGRAMMING AND PROBLEM SOLVING

Onsite Contests:

NEUB Junior Programming Contest 2017
(Rank 33)

LU ICT Fest 2018 National Programming
Contest (Rank 29)

Online Judges:
